Career Objective

Looking for a role in a professional environment where I can apply my skills, grow through experience, and make a meaningful contribution to the organization's success.

Career Summary

Holding a BBA in Business Administration and an M.Sc. in Applied Statistics & Data Science, I combine management knowledge with strong technical skills. I am experienced in Python, PHP, JavaScript, Java, MySQL, Laravel, Django, Node.js/Express.js backend development, web platforms, eCommerce systems, cloud, Kubernetes, CI/CD, DevOps, and machine learning & data science. I build efficient, data-driven applications, integrate services, and deliver practical, high-quality solutions.

Special Qualification

Skilled in API architecture, eCommerce engineering, machine learning & data science, containerization, CI/CD & DevOps, cloud & Kubernetes, scripting, Git, and databases. Quick learner, detail-oriented, and works well in team environments.

Experience

Total Year of Experience: 7.1 yrs

1. **Senior Software Engineer - Otithee.com** **12 Dec, 2023 - Continuing**

   Police Plaza Concord, Tower-1, Gulshan, Dhaka 1212

   Area of Expertise: Software Engineering (**2.2 yrs**)

   Duties/Responsibilities

   - Collaborate with teams to translate business requirements into solutions.
   - Design, develop, test, and maintain web applications and APIs using the Laravel framework.
   - Implement and manage Continuous Integration/Continuous Deployment (CI/CD) pipelines.
   - Design and implement scalable applications using monolithic and microservice architectures.
   - Manage version control and collaborative development workflows using GitHub.
   - Utilize Docker for containerized application deployment and environment management.
   - Integrate and manage payment gateways, including SSLCOMMERZ, bKash, and Nagad.
   - Develop automation and AI-driven features to enhance system efficiency.
   - Conduct code reviews, troubleshoot issues, and ensure high-quality software delivery.
   - Work with relational and NoSQL databases (MySQL, PostgreSQL, MongoDB).
   - Document applications, APIs, and system processes for maintainability and knowledge sharing.

2. **Full-Stack Web Developer - Upwork** **02 Feb, 2019 - Continuing**

Remote work

Area of Expertise: Full-stack Software Developer **(7.1 yrs**)

Duties/Responsibilities

- Develop and consume RESTful and JSON APIs for seamless system integration.
- Build and maintain web applications using WordPress, Laravel, and Django frameworks.
- Deploy and manage cloud infrastructure on GCP and AWS (EC2, S3).
- Manage domains, configure VPS servers, and maintain cPanel/WHM hosting environments.
- Optimize application performance, scalability, and security following industry best practices.
- Monitor and troubleshoot server, application, and network issues to ensure high availability.
- Implement website security measures, backups, and monitoring to protect client systems.
- Maintain documentation for applications, APIs, infrastructure, and system processes.

3. **Lead Web Developer - Bright Technologies Limited** **19 Oct, 2022 - 04 May, 2023**

63 Rd, Dhanmondi 27, Dhaka 1209

Area of Expertise: Web Developer **(0.6 yrs)**

Duties/Responsibilities

- Developed scalable and high-performance eCommerce platforms from scratch.
- Implemented SEO strategies to enhance online visibility and search ranking.
- Managed website and cloud server maintenance to ensure uptime and security.
- Oversaw Git version control and CI/CD pipelines for efficient deployment.
- Collaborated with cross-functional teams to align technical solutions with business goals.
- Developed and maintained API integrations for third-party services.

4. **Full-Stack Web Developer - C3 Cyber Club** **02 Sep, 2019 - 16 Jul, 2021**

44710 Cape Ct STE 118, Ashburn, VA 20147, United States

Area of Expertise: Web Developer **(1.9 yrs)**

Duties/Responsibilities

- Optimize website speed, performance, and responsiveness across devices.
- Implement SEO best practices to improve search engine rankings.
- Troubleshoot and resolve website errors, bugs, and downtime issues.
- Integrate plugins, themes, and third-party tools to extend functionality.
- Backup and restore websites to ensure data safety and reliability.
- Monitor website analytics to improve user engagement and conversion rates.
- Configure security measures, firewalls, and SSL certificates for safe operations.

Academic / Education

Exam Title	Major	Institute	Result	Achievement
M.Sc. in Applied Statistics and Data Science	Data Science	Jahangirnagar University	2.9 out of 4.0 Duration: 1 Year Pass Year: 2023	M.Sc. thesis: “SDM-RF-MAXNET (Species Distribution Modeling)”
Bachelor of Business Administration (BBA)	Accounting	National University of Bangladesh	2.74 out of 4 Duration: 4 Year Pass Year: 2020	Completed BBA in Accounting
HSC	Commerce	Jessore Govt. City College	3.33 out of 5 Duration: 2 Year Pass Year: 2016	Completed HSC in Commerce
SSC	Science	Bheramara Model Pilot High School	3.75 out of 5 Duration: 2 Year Pass Year: 2014	Completed SSC in Science

Professional Qualification

Certification	Institute	Location	From	To
Google IT Automation with Python	Coursera	coursera.org	23 Oct, 2021	30 May, 2022
Google Data Analytics Specialization	Coursera	coursera.org	05 Mar, 2021	19 Oct, 2021
Professional Certificate in Computer Science for Web Programming	edX	edx.org	02 Feb, 2021	20 Aug, 2021
CS50's Web Programming with Python and JavaScript	Harvard University	cs50.harvard.edu/x/	05 Feb, 2020	15 Jan, 2021

Skill

Fields of Skill	Description
➔ Web Development & Design ➔ Laravel & Django Frameworks ➔ Backend Development: PHP, Python, Java ➔ MySQL, MariaDB, MongoDB, NoSQL ➔ Machine Learning & Data Science ➔ JavaScript, Node.js, Express.js ➔ Version Control: Git & GitHub ➔ Data Analysis & Visualization	Versatile developer skilled in web development and design using Laravel, Django, HTML, CSS, JavaScript, PHP, and Python. Experienced in data management, SQL, data analysis, machine learning, and data science, with strong version control using Git/GitHub.

Accomplishment

Portfolio

1. AutoForm Fill Data Generator - Chrome & Firefox Extension
URL: https://addons.mozilla.org/en-US/firefox/addon/auto-fill-fake-data-generator/

AutoForm Fill Fake Data Generator is a Chrome and Firefox extension that instantly fills any web form with realistic fake data, supporting modern frameworks like React, Vue, Angular, Next.js, and more.

2. PBHJ Advanced Formatter – Fast and reliable HTML, JavaScript, PHP code formatter
URL: https://marketplace.visualstudio.com/items?itemName=Yamin.pbhj-advanced-formatter

PBHJ Advanced Formatter is a VS Code extension for fast, reliable formatting of HTML, JavaScript, PHP, and Blade files, supporting Prettier and blade-formatter, with customizable settings for indentation, quotes, semicolons, and consistent code style.

Publications

1. Machine learning based potential distribution of Siam weed in Bangladesh
URL: https://github.com/needyamin/SDM-RF-MAXNET

SDM-RF-MAXNET is a machine learning project using Random Forest and MaxNet for Species Distribution Modeling (SDM) to predict species occurrence based on environmental data. The project is under development and review for upgrades.

Some Projects

1. Laravel eCommerce System
URL: https://github.com/needyamin/eCommerceLaravel

A modern, feature-rich eCommerce platform built with Laravel 12. Perfect for online stores with a powerful admin panel and beautiful storefront.

2. Advanced PDF Reader
URL: https://sourceforge.net/projects/pdf-reader/

A professional, feature-rich PDF reader application built with Python and Tkinter, designed for seamless PDF viewing, annotation, and management.

3. Media Downloader
URL: https://sourceforge.net/projects/media-downloader/

A desktop application developed for educational and personal use, designed to help users explore how media handling tools work. It supports downloading high-quality videos and audio from public sources.

4. LingoLearn Phonetics
URL: https://sourceforge.net/projects/lingolearn-phonetics/files/v1.0.0/

LingoLearn Phonetics is a cross-platform desktop app for improving English pronunciation with IPA transcription, audio playback, and an English–Bangla dictionary, built with Electron for a simple, user-friendly learning experience.

Others

1. To-Do Desktop GUI
URL: https://github.com/needyamin/to-do

To-Do is a simple task management web app that lets users create, edit, and delete to-do items with a clean interface. It’s built with modern web technologies to help organize tasks efficiently and improve productivity.

2.TS-TTS to MP4 Converter
URL: https://github.com/needyamin/TS-TTS-to-MP4-Converter

TS TTS to MP4 Converter is a tool that converts text (TTS) into MP4 video using voice synthesis. It takes text input, generates speech, and outputs an MP4 file with audio, useful for creating narrated videos from text.

Extra Curricular Activities

Developed projects showcasing skills in software, AI, and ML, including LingoLearn Phonetics (English pronunciation), PBHJ Advanced Formatter (VS Code), Blogger API V3 Reader (Android), Worker AI Chat (VS Code assistant), TS TTS to MP4 Converter, To-Do web app, Laravel Whisper CLI with Docker, and SDM-RF-MAXNET (ML species distribution, in progress).

Language Proficiency

Language	Reading	Writing	Speaking
English	High	High	Medium

Personal Details

Father's Name	:	MD. HAFIZUDDIN MANDOL
Mother's Name	:	MST. NAZRIN NAHAR
Date of Birth	:	31 Dec, 1997
Gender	:	Male
Marital Status	:	Single
Nationality	:	Bangladeshi
Religion	:	Islam
Blood Group	:	O+
